

HIMALAYAN HIGH TREKS

Adventure Travel To The Himalayan Regions Of Nepal, India, Bhutan & Tibet **Plus** Southeast Asia

241 Dolores Street • San Francisco, CA 94103 USA • 1-415-551-1005

Himalayan High Treks began back in 1988 as a vision and alternative to the large, impersonal and commercial travel companies that often sub-contract your experience to unknown people and places. Instead, Himalayan High Treks draws on first-hand and personal knowledge of every trail, site, point-of-interest and local staff member you may encounter along your journey. Our scheduled group treks and tours are designed with an experienced group leader and our custom trips are coordinated by local, English-speaking guides who were born and live in the areas you travel.

Our small size is our strength, affording us the flexibility to develop custom adventure itineraries in close contact to people and places you will visit. Local staff offers visitors real insight into their customs and people. You travel comfortably and safely while maintaining respect for unique communities, cultures and environments along the way. *“This means we don’t often stay in fancy five-star hotels or eat in western-style restaurants”,* says HHT founder Effie Fletcher, *“We really try to offer our travelers an authentic and unique experience, which often requires adjusting to a new way of doing things.”*

Trekking in the Himalaya offers a special opportunity to safely explore very high mountains, rustic secluded villages and traditional cultures. Unlike a backpacker, a trekker just carries a daypack with essential items. **Porters, yaks or horses** carry the loads— allowing trekkers special comforts, food and amenities along the rustic trail that you wouldn’t have otherwise. **Safety is our prime concern during every trip** – there are always staff with you who are experienced in safety and first aid. **Touring in Southeast Asia** is restful too – with easy day hikes, great food and cultural explorations.

Trek & Tour Guides not only lead staff, they help provide each participant with in-depth knowledge about specific places you travel. Guides are experienced English-speaking locals – ‘born and bred’ in the areas you visit. Leaders have a lengthy experience and love of these communities. Before you go, we provide insightful information to help prepare you for each aspect of your trip – health, safety, culture, religion, food, local customs and more. No matter if you are road touring or alpine trekking, we’ll provide the resources, background, organization and people for a trip of a lifetime!

*“It was the world’s best trek!
Even a trip to the moon couldn’t beat it.
We were so glad for our guide Amber’s
hard work, patience, expertise,
understanding and experience.”*
*Dr. Joel A. and Lisa N. – Berkeley, CA
Custom Trek, Ladakh*

***If you prefer to be a
traveler instead of a tourist,
we hope you’ll join Himalayan
High Treks
for your own adventure!***

*“I just want to say that almost every time we
passed another group I was struck by how
lucky we were to be with our group. Specific
advantages: small group; knowledgeable and
involved guides and staff; horses seemed
better cared for; generally respectful of the
environment.”*
*Sid M. and Todd P. – Enfield, NH
Zanskar Ladakh*

CUSTOM TREKS & TOURS

*“A wonderful trek. Terrain was pristine, the
forests clean and quiet. Each and every
employee went far beyond what could be
reasonably expected. I can honestly say that the
preparation and execution of our trip ... until the
time we left, a period of 17 days, every thing was
handled flawlessly.
It was truly remarkable.”*
*Charles S. – Oakland, CA
Kuari Pass, India Custom Trek*
